On-Page Link Structure

We found 66 total links. 18% of your links are external links and are sending authority to other sites. 0% of your links are nofollow links, meaning authority is not being passed to those destination pages.

Broken Links

We have found 6 broken link(s) on your page. Broken links are confusing to users and can reduce traffic and ranking ability of pages.

Please note, we were not able to crawl all links in the given time window. Only 30 of 45 total links found were able to be crawled.

Friendly URLs

Some of your link URLs do not appear friendly to humans or search engines. We would recommend making links as readable as possible by reducing length, file names, code strings and special characters.

OTHER

Robots.txt

We have not detected or been able to retrieve a robots.txt file successfully.

A robots.txt file is recommended as it can provide important instructions to a search engine for how to most appropriately crawl your website as well as site areas that should be ignored.

XML Sitemaps

We have not detected or been able to retrieve a XML sitemaps file successfully.

A sitemap includes a list of your pages that are available for crawling, as well as other useful information for search engines such as last update times and priority of pages. Sitemaps are recommended to ensure that search engines can intelligently crawl all of your pages.

Analytics

Your page is using an analytics tool.

Usability

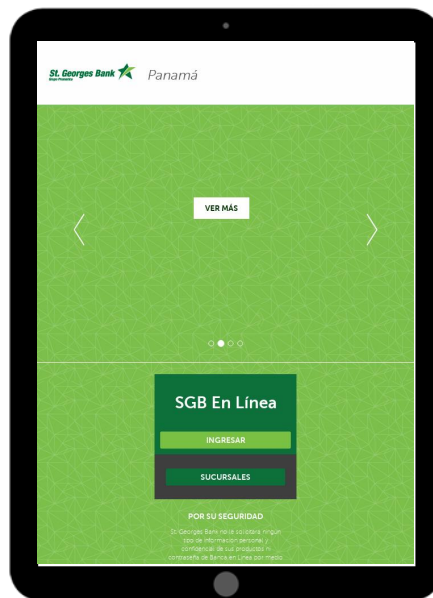

Your usability is very good!

Your page is highly usable across devices. Usability is important to maximize your available audience and minimize user bounce rates (which can indirectly affect your search engine rankings).

Device Rendering

This check visually demonstrates how your page renders on different devices. It is important that your page is optimized for mobile and tablet experiences as today the majority of web traffic comes from these sources.
